This application is up for consideration.

I. There are many possible compounds of the general formulas I, II, III and IV in the instant application.

II. Claims 2, 4, 6, 13 and 15 are generic to a plurality of disclosed patentably distinct species comprising compounds 101-139, 201-275, 301-335 and 401-442. Applicant is required under 35 U.S.C. 121 to elect a single disclosed compound species for an initiation of a search, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

III. A telephone call was made to Mr. Bruce E. Kramer on 06 January 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Mr. Kramer requests a written Office action since his clients are overseas.

IV. Applicant is advised that the reply to this requirement to be complete must include an election of one compound species to be firstly considered and searched even though the requirement be traversed (37 CFR 1.143).

V. Other issues have not been considered until a proper election is made and resolved.

VI. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hoa V. Le whose telephone number is 571-272-1332.

The examiner can normally be reached from 6:30 AM to 4:30 PM on Monday through Thursday and about the same time of most Friday.
